PROFILE

I enjoy designing and building purposeful websites and digital experiences. My approach to web development is rooted in responsibility: creating solutions that look great, work seamlessly for everyone, and remain reliable and relevant over time.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATICS

Singidunum University

2009 - 2013

MASTER OF SCIENCE IN INFORMATICS

Singidunum University

2013 - 2014

LANGUAGES

- Serbian
- English
- Spanish (Beginner)

EXPERIENCE

SINGIDUNUM UNIVERSITY

2011 - 2013 / Student Demonstrator

Worked on graphic and web design, video and audio editing, and delivered web design courses and practical training sessions.

WebIT Academy

2013 - 2015 / Graphic & Web Designer / Instructor

Designed logos and advertising materials, developed websites, and delivered training in web design fundamentals and content management systems (CMS).

Philological High School, Belgrade

2013 - 2015 / Computer Science Teacher

Taught computer science, developed lesson plans and educational materials, conducted classroom activities, and assessed students' progress and understanding.

FXLider

2015 - 2016 / Graphic & Web Designer

Managed a WordPress multisite network of nine websites, developed new functionality, created marketing materials and visual assets, and managed newsletter campaigns and communications.

One Click Marketing

2016 - Present / Project Manager & Full-Stack Web Dev

Managed end-to-end web development projects while actively contributing to full-stack development. Oversaw project planning, coordination, and delivery, translating business requirements into technical solutions and ensuring the successful implementation of scalable, high-quality web applications.
